Intalere Clinical Specialists

One-to-one interaction with members to optimize product standardization and utilization, identify savings opportunities and enhance outcomes.

www.intalere.com

"My Intalere Clinical Specialist is able to take our clinical situations and utilize her knowledge and experience to recommend the most cost effective, long term solutions. As a practice, we simply do not have the time or the resources to research and understand the level of detail involved in presenting a fully researched and clinically validated solution."

*Joel Young
Chief Executive Officer
Regional Urology, LLC*

The Intalere specialist teams will enhance your ability to provide the highest level of healthcare for your patients, help you meet your organization's goals and provide you with a competitive advantage.
